Creating and Working with Microsoft Excel Workbooks Using the SAP Analytics Cloud, Add-in for Microsoft Excel - Record of Achievement

After completing this learning journey, business users with power user responsibilities and consultants will be able to launch the SAP Analytics Cloud, add-in for Microsoft Excel, connect to an SAP Analytics Cloud tenant, and add a data source to the Microsoft Excel workbook. They will also be able to analyze data, enhance and format a worksheet, and work with planning functionality using the SAP Analytics Cloud, add-in for Microsoft Excel.
